

How PVC personal protection equipment prevents the spread of infections

HEAD COVER

PVC head covers are fluid-resistant.

GOGGLES OR FACE SHIELD

Goggles and face shields made of PVC offer a high level of protection and visibility.

GOWN

Gowns made of PVC are impermeable and resistant to pathogens.

SURGICAL GLOVES

Surgical vinyl gloves are hygienic and inexpensive.

CLEANER'S GLOVES

Cleaner's gloves of PVC are heavy-duty and can be washed and sterilised after use.

APRON

PVC aprons are impermeable and resistant to pathogens.

BOOTS

Light-weight, heavy-duty and anti-slip PVC boots. Can be sterilised after use.
